Theroux's journey begins in Moscow, where he boards the legendary train that will carry him across Russia. As the train pulls out of the station, Theroux is struck by the sheer size of the country he is about to traverse. Russia is the largest country in the world, and the Trans-Siberian Railway is the longest railway in the world. It is a journey that will take Theroux through eight time zones and across some of the most remote and inhospitable terrain on Earth.

As the train travels east, Theroux meets a diverse group of fellow passengers. There is Anya, a young Russian woman who is traveling to visit her family in Siberia. There is Ivan, a retired engineer who is returning home after working on a construction project in the Far East. And there is Boris, a商人 who is traveling to Vladivostok to close a business deal.

Through his conversations with his fellow passengers, Theroux learns about the lives of ordinary Russians. He hears about their hopes and dreams, their fears and frustrations. He also learns about the challenges that Russia faces, both economically and politically.

As the train crosses Siberia, Theroux is awed by the vastness of the landscape. He sees endless forests, rolling hills, and sparkling rivers. He also sees the scars of Russia's past, in the abandoned villages and decaying factories that dot the countryside.

Theroux's journey ends in Vladivostok, a port city on the Pacific Ocean. As he disembarks from the train, he reflects on his experiences. He has seen the beauty and the harshness of Russia, and he has met some of the most interesting people of his life. *To the End of the Line* is a captivating account of a journey across one of the most iconic railways in the world.
